

# AIR BRAKE SERVICES TRAILQUIP

## QUALITY POLICY

At **ABS Trailquip**, through a system of review of our operations with our key stakeholders, we continuously monitor all levels and inputs into our organisation to achieve improvements wherever possible.

Above all, we deal openly with our clients, colleagues and suppliers to make sure that we begin and maintain honest, open and positive relationships. We recognize that these relationships are dynamic and need constant care and management to ensure a steady continuance in the development & success of **ABS Trailquip**.

This program includes a Quality Management System modelled on the Australian and International Standard **ISO 9001:2015 Quality** and other standards as required by our organisation to meet our stakeholder's needs and expectations.

In pursuing our quality goals and objectives, **ABS Trailquip Management** has adopted the following approach:

- To comply with all requirements and continually improve the effectiveness of the Quality Management System.
- Regularly review the quality objectives and their suitability to the organisation.
- Effectively communicate the objectives to all levels within the organisation.
- To ensure the highest quality of technology & service ensuring the satisfaction of our customers.
- To control all documents required by the quality management system
- To provide a working environment for the team which is safe efficient and compliant with the applicable legislation.

All the **ABS Trailquip** team are responsible for the communication, promotion, implementation and success of this policy.
