LOCKING IN THE COLD!**

ICE VAULT SERIES

Revolutionizing Refrigerated Transport with TMG ICE VAULT Reefer Trailers

As the demand for fresh and frozen foods continues to rise, so does the need for refrigerated trailers that are **flexible, durable, lightweight, and highly efficient**. TMG Reefer Trailers are designed to meet these exact demands, providing superior **temperature control, hygiene, and reliability** for a wide range of perishable goods, including:

- Ice cream & deep-frozen products
- Farm-fresh fruits & vegetables
- Day-old chicks & eggs
- Hanging meat
- Pharmaceuticals & vaccines
- Medical waste

Precision Engineering for Maximum Performance

Built using **advanced composite panel technology**, TMG refrigerated trailers deliver **exceptional durability, thermal efficiency, and cost-effectiveness**.

- **Reinforced high-strength floors** – Supports forklift freight loading with proven durability
- **Premium insulation** – Ensures maximum thermal efficiency and energy savings
- **High-strength composite sidewalls** – Lightweight yet robust construction
- **Seamless hygienic interior** – Ideal for food transport and medical applications
- **Multi-compartment dividers** – Maintain precise temperature zones for mixed loads
- **Advanced multi-seal door gaskets** – Exceptional performance against temperature loss

Unmatched Value & Lower Cost of Ownership

TMG Reefer Trailers integrate state-of-the-art manufacturing techniques to provide:

- **Long-lasting durability** through innovative design and materials
- **Food-safe Gelcoat interiors** for superior hygiene and easy cleaning
- **Precision high-density insulation** for improved thermal performance
- **Lower maintenance costs & reduced downtime** for increased operational efficiency

With TMG Reefer Trailers, you get more than just a trailer—you **get unparalleled reliability, efficiency, and peace of mind**.

Ready to elevate your refrigerated transport? Choose **TMG** for quality you can trust!

STANDARD FEATURES

- Full Chassis.
- TQA Air Suspension.
- TQA Parallel Bearing Axles.
- EBS Brake System.
- Digital Load Scale.
- Suspension Raise & Lower.
- Hubometer.
- Multi-Volt LED Lights.
- Barn Doors.
- Stainless-Steel Hardware.
- Stainless Steel Freightlok Rails.
- Aluminum Airflow Floor.
- Road Train Coupling Ready.
- Polished Alloy Rims.
- Triangle TR666 Tyres.
- Spare Wheel.
- Toolbox.
- Water Tank.

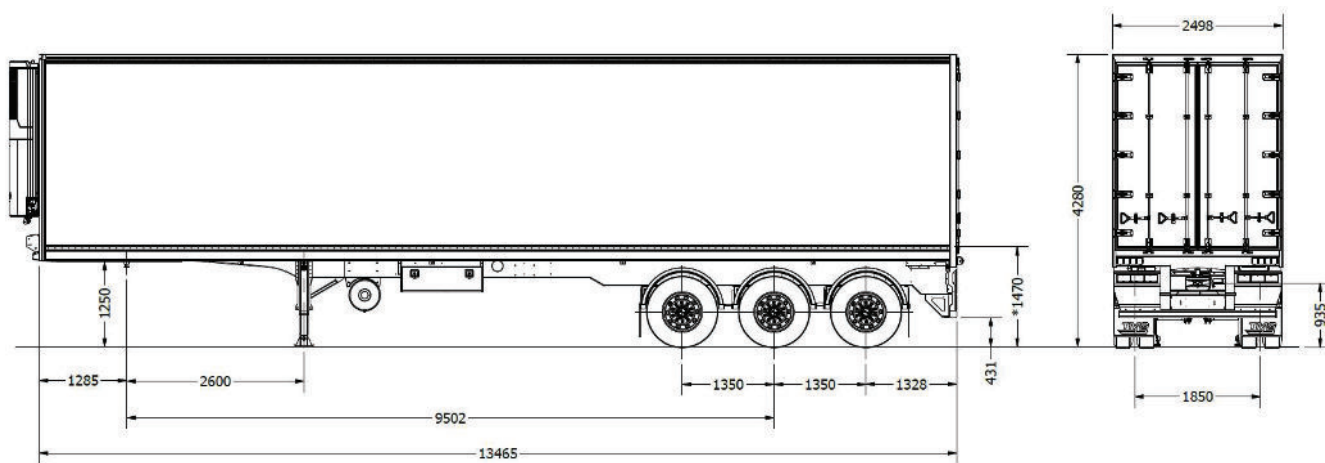

Combinations:

Semi, B-Double & Road Train.

Service and Warranty

Although we strive for perfection in our manufacturing process, occasional defects may arise, whether from our own production or from components supplied by third-party vendors. We proudly provide a three-year warranty (Unless otherwise specified) covering design and manufacturing defects. Additionally, products integrated into our trailers are subject to the warranty policies of their respective suppliers. For detailed information on our warranty terms and conditions, please reach out for more details.
